

Favourite Artist Project

In a new google document write your answers to the following questions and share your google document with: alexander.macdonell@ocsb.ca

Who is your favourite musical artist or group?

Create a project about your favourite musical artist. Include a song performed by that person or group through a youtube URL link. *The song you choose may **not** have any curses or inappropriate lyrics.*

Be creative with your project! You can write a script as if you interviewed the artist, make a concert poster from their last tour with all the information, or even write your own song about them! Use your imagination!

If you choose to create a **poster**, upload a picture of it to your google document. Make sure the writing is clear in the photo(s). More than one close up photo may work best. If you choose to write a **song**, then include the lyrics of the song in your google document.

*Please **indicate** in your google document which format you have chosen. You may come up with your own format as well, as long as it includes all the information below.*

Include all of the following information:

~ Real name

~ Date of birth (age)

~ Town in which they grew up

~ How long have they been performing professionally?

~ Genre of music they perform or write

~ Instruments they play (even ones they don't usually perform on)

~ Who "discovered" them?

~ When were they signed?

~ To what label are they currently signed?

~ Last tour information: name, where, when

~ Any other important information

~ The song you choose by the artist: title, year recorded, why you chose this song, and what this song means to you.

~ And for flavour, the artist's favourite ice cream flavour or something personal
