

# Social Media Story Writing

**Write** a story that is about half a page to a page long about a topic of your choice. Your story can be **fictional** or **non-fictional**. Feel free to choose one of the topics below or **create** your own.

Topic **options**:

- Your social distancing experience
- How to cook your favourite meal
- Your perfect summer
- Adopting a strange pet
- Life as a famous person
- A long journey is interrupted by a wonderful opportunity
- Magic, wizards, and dragons
- Pirates on an adventure

Write your story out on a piece of **paper** or in google docs. Then use the ‘instagram template’ to **draw** pictures of each event in your story. Your pictures can be in comic-book style, blog style, or simply snapshots of great moments in your story. You can **print** the instagram template or draw your own out on paper. The ‘plot diagram’ has been added to help you **develop** your story if you need it.

Make sure you draw your main character in the top left **circle** as their profile picture and write a short biography about who this character is on the lines below their profile picture. Your **biography** can be a list of things about this character or a sentence about the story you are telling.

Biography **example**: Hi, I’m Chester! Welcome to my instagram page where I tell you a story about how I defeated the monster under my bed.

If you enjoy this **activity** then make more than one story! Writing is fun and can be a **fantastic** way to let your creativity flow.

**\*note**: words are highlighted to make the document look **nicer!** Have a good **week!**
